1_Week - VS Code: Installation

Saturday, June 24, 2017   2:29 PM

Download VS Code: https://code.visualstudio.com/

Windows Installation:

1. Select the appropriate operating system (Windows or Mac)
2. Run the downloaded .exe file
3. Select "Next" to continue with the setup
4. Review the License Agreement and choose "I accept the agreement" and select "Next."
5. Take note of the installation folder (leave the default path) and select "Next."
6. In the "Select Start Menu Folder" window, allow the setup wizard to add a shortcut to your "Start Menu" and select "Next."
7. In the "Select Additional Tasks" choose "Create a desktop icon" and "Add to PATH (available after restart)" and select "Next."
8. Select "Install"
9. Once completed, Select "Finish"
10. Launch VS Code
11. Pin to task bar (recommended)
